### The benefits of acting, drama and public speaking

Creativity, communication skills, empathy, teamwork, confidence, and problem-solving abilities. These skills and qualities are not only essential for future artistic pursuits but also play a significant role in personal development and success in various areas of our students lives.

### HOUSE POINTS APRIL

| <b>-FIRE-</b><br><br>1269  | <b>-EARTH-</b><br><br>1353 |

In an era where effective communication is a cornerstone of success in various professional fields, it is paramount that we equip our students with the tools they need to excel in this area. Drama and live performances provide a unique platform for them to nurture these essential skills. drama and live performances foster self-confidence in our students. The experience of rehearsing and presenting in front of an audience enables them to overcome stage fright and develop a sense of self-assurance. By exploring different roles and characters, our students gain the courage to express themselves with conviction and poise. This confidence extends beyond the stage and serves as a strong foundation for future public speaking endeavors.

In conclusion, we, at Sage College, firmly believe that the subject of drama and live performances is instrumental in nurturing the skills of public speaking and oral expression in our students. By investing in this discipline, we are providing them with a solid foundation for success in their future endeavors, where effective communication is paramount. I kindly request your support and endorsement in further promoting the importance of drama and live performances within our school curriculum such as the coming Mamma Mia Performance planned for the 19th of May.

Sincerely,

Mr Wickham

### MESSAGE FROM OUR HEAD

## PLANTING A SEED

We love seeing how plants GROW!

Last week our **Dinky Ducklings** have been **planting seeds**. First they use their creativity and imagination to **paint the pots** they brought from home days before. Then, they left them on the patio for drying them up and later on, they put cotton, lentil seeds and water into their pots to see how the leaves start to appear and the plant grows. Our **Little Sagers** enjoyed the process of this activity as all you know; **gardening supports academic achievement**, helps students develop a healthy lifestyle, makes them more aware of their environment and helps them develop a sense of community. We can't wait to see how they grow even more!

## YEAR 6 ACTORS A Day in the Museum

Year 6 have been **showcasing their collaborative and cross curricular learning**. This term they have been exploring the theme of **"Surrealism"**. In Maths they have learned about Fibonacci and created their own abstract art work by measuring accurately to create **Fibonacci circles**. During English and Art they have been learning about contemporary artists and have created their own piece in the style of the Spanish artist **Joan Miro**.

They performed too the play **"Un día en el museo"**. It was amazing! We have lots of talented actors! The children have shown great enthusiasm in Lengua Castellana interpreting and understanding the text.

## MAMMA MIA!

**Have you received your invitation yet to the wedding year?**

Sage College is a-buzz with our latest theatrical extravaganza, **Mamma Mia**, which sees our school being transformed into an **authentic Greek island**, with culinary flavours to boot. Students and staff have been **rehearsing with passion and energy to bring this amazing show**. Don't miss out on this truly unique experience!!!

## TALK TO STUDENTS

### Managing stress and organisation during the examination period

It is important to **manage the stress and have a good organisation at all times**, but it becomes specially important during the examination period. **Sara Ruiz, psychologist, talked to the Year 13** students on those topics, now that they are putting everything in place to get the best results in their A level and EvAU exams to go to university. We would like to thank Sara for her time and fantastic talk.

## NATIONAL COMPETITION

### Excelling

Our Year 13 student and **Head Boy Gonzalo Vela**, participated in the **"Olimpiada Nacional de Física"**, which took place in Lugo. He had that possibility after the good result he got in the previous exam at University of Cádiz.

Well done!
